

# Smartcopying

The Official Guide to Copyright Issues for Australian Schools and TAFE

## Browser Caching

**Browser caching** refers to the process whereby webpages viewed by a user are temporarily stored on a user's hard drive. If the user hits the 'back' button on their browser, the webpage will be shown from the browser cache rather than re-downloading the site from the Internet.

The Smartcopying website has been produced by the National Copyright Unit on behalf of the Copyright Advisory Groups (Schools and TAFEs).

Except where otherwise noted, content on this site is licensed under a Creative Commons Attribution 4.0 International Licence.
